

LATIHAN GUI SWING

Latihan membuat tampilan program Java berbasis GUI dengan Java Swing.

Buatlah sebuah program Java berbasis GUI (Graphical User Interface) untuk melakukan input data mahasiswa.

Contoh tampilan sebagai berikut :

The screenshot shows a Java Swing window titled "Form Biodata Mahasiswa". The window contains a form titled "BIODATA MAHASISWA" with the following fields and controls:

- NIM:** A text field containing the value "20170920001".
- Nama:** A text field containing the value "Muhammad Farhan Nugraha".
- Alamat:** A text area containing the value "Kel. Cigadung".
- Jenis Kelamin:** Two radio buttons, "Pria" (selected) and "Wanita".
- Program Studi:** A dropdown menu showing "SI".
- Jurusan:** A dropdown menu showing "SISTEM INFORMASI".
- Buttons:** Three buttons at the bottom: "Simpan", "Baca Data", and "Keluar".
